

REGISTER TODAY!

Please make plans to attend the 2012 Oklahoma Concrete Pavement Conference at the Embassy Suites in Norman. This year's program will focus on the fundamentals of materials and construction of concrete pavements and will be based on the *Integrated Materials and Construction Practices for Concrete Pavements: A State-of-the-Practice Manual*. This FHWA sponsored 350 page manual is a must have resource for anyone involved in the use of concrete pavement and is available for free in a PDF format download.

What will you learn?

The workshop teaches participants to:

- Understand concrete pavement properties as several discrete elements that affect, and are affected by, each other.
- Understand the technologies, tests and basic practices to identify materials, concrete properties, and construction practices that optimize concrete performance.
- Anticipate the effects of actions and decisions during each stage of a project on the other stages.
- Avoid or reduce factors leading to premature distress in concrete.

Who should attend?

- Design, materials, and construction engineers and technicians.
- Quality assurance/control personnel.
- Construction supervisors and inspectors.
- Contractors.

Presented By:

Oklahoma/Arkansas
Chapter, ACPA

OKLAHOMA / ARKANSAS CHAPTER
