

Concrete Overlay

Kingfisher County Goes Concrete

NS 274

5" Concrete Overlay

West of Okarche

Kingfisher County, OK

Do it Right the First Time!

These days money is too hard to get to waste it away on short term fixes. Especially now that initial costs for concrete pavement are equal to and in some cases lower than other pavement types. Why pay for a ten-year fix when you can get a lifetime fix?!

Concrete overlays make sense for county roads. They go down quick, provide a hard, durable surface and they will last for decades.

Did you know that the cement used to build concrete pavements is produced right here in Oklahoma? Absolutely none of it comes from the Mid East or other countries unfriendly to the United States.

Concrete Pavement

Right Choice, Right Now!
